Churches, schools, sales and marketing departments, government offices, videographers, and recording studios alike will benefit from the ease, speed, affordability, and professional results derived from the CX-1 Disc Publisher. The CX-1 makes the process of producing professionally finished CDs, DVDs, and Blu-ray Discs in mid-to-high volumes nearly effortless. Even novice users can easily operate the device, thanks to an intuitive user interface and PrintWrite software for PC and Mac. Set it up, walk away and the 100-disc capacity enables automatic unattended burning and printing of all your discs, or publish over a network. DiscPlace Technology provides improved loading and reliability; and with easy disc alignment calibration, you can count on the CX-1 Disc Publisher to meet your demands for reliable, no-nonsense operation.

Fast throughput is no problem for this device, which provides high-speed 8X Blu-ray, 24X DVD, and 48X CD recording on virtually any type of disc, including Dual Layer and connects through a single USB cable.

After recording, you can easily finish your discs with superior disc printing capabilities. The process is fast and cost-effective with a device that delivers high-resolution graphics in less than 20 seconds and for only 25 cents per disc (full color, full coverage). SureThing label design software enables you to create labels with a professional flair. And whether you're printing full-color, full-coverage discs or light coverage with text only, you'll enjoy brilliant results. Our fourth generation disc handling technology provides smooth, clean images; and HP inkjet technology, with vibrant HP Vivera inks, provides consistently brilliant color—in text and images—on each and every disc.

Take your efforts to the next level with Microboards' CX-1... and our service and support technicians who are always available when you need them.
